From first speeches statements YL seems like he thinks he is still presenter on TV channel 2 !!!
Hopefully I'm wrong but have a bad feeling. And without Ehud there (other than Defence) there won't be a real balanced, understanding voice.
Benet sound like a total moron regarding economy/finance and Bibi still lives in Regan/Thatcher area !!!
We're having great time here , surrounded by Russians who are not aware that a big chunk of their money went to drain in Cyprus (Lieberman's money , I hope, as well...) !!!
Big Hug
